The stock grew from year to year as trade increased, until now it is probably the largest store in the county devoted exclusively to dry goods. The present location, a magnificent stone front building, was purchased in 1890, and as lately remodeled and enlarged, has no equal in this section for light, space and general adaptation to the business. Buying for cash and selling for cash, has been the foundation upon which this success was founded, and it has long since been learned by the public that for real values, the best goods at the lowest prices, Otto Krug's Dry Goods and Carpet Store deserves first place.

ARCADE.

THE ARCADE was established and opened by C. W. PADGETT, in June, 1887. Mr. Padgett recognized that Society is divided into classes, and that this is as true regarding patrons of Saloons as in any other particular. Ever since the organization of Society there has been a social custom of breaking bread and drinking wine together as a token of friendship and good will, and many people merely drink for the sake of manifesting this spirit of sociability with their friends. Others drink because they like the stimulating effects of a drink of pure liquor; others because they enjoy the refreshing effects of a draught of Beer or Ale. These classes are composed of gentlemen of intelligence, refinement and good taste who abhor vulgarity, profanity and rowdyism. There is another class who drink because they find depraved pleasure in getting drunk, blackguarding, blaspheming and indulging in rowdyism. The last named class is not at all congenial to the others and where you find it you will not find the others. MR. PADGETT determined, at the commencement, to conduct

.....The Arcade.....

in such a manner as to command the respect of the better classes and to that end no drunkenness, profanity, obscenity nor disorderly conduct was permitted in the house and every patron was requested to conform to these rules. If he did not manifest a disposition to do so he was at once notified that neither his patronage nor presence was desired.

There was another essential thing to be considered in catering to this class of trade: The goods offered must be of such a high class as to commend themselves to them, in view of which the oldest and best brands of Kentucky Whiskies and old Maryland Rye were procured; he sent direct to the vineyards of California for his native wines; he procured the Old London Dock Gin, famous in all countries for its excellency. With these and the best brands of imported Brandies, Cordials, etc., the reputation of the ARCADE was made and kept. Much credit for the good character and popularity of the place is due to the efficiency and courtesy of MR. PERRY BOTTS, who has been intimately connected with its management.
